December 3, 1997

Reference: telephone conversation on Dec. 2, 1997 between Mike McEwan and Lynn Kunzler

Dear Sirs,

As you are already aware, we have retained Mr. Patrick Collins of Mt Nebo Scientific to help us complete to your satisfaction the "Notice of Intent to Conduct Large Mining Operations".

We sent to your office, April 25th and May 1st, what we considered to be a very detailed and professional "Notice of Intent" regarding Pelican Point Quarry.

After your review and letter dated Oct. 2, 1997, I have contacted Mr. Collins concerning the reviewed comments. Patrick Collins has been extremely busy and is committed through the end of this year making it impossible to complete our response for your office by Dec. 31.

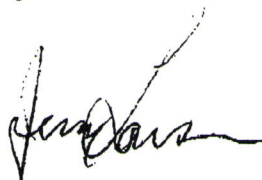

I feel that it would be very unprofessional on our part to have anyone else complete this request. In conversation with Mr. Collins, he assures me that he will be able to finish this review by Jan 30, 1998 (if not before).

I would request a time extension until then. I have enclosed Mr. Collin's phone number in the event you may have any questions. (801-489-6937)

Thank you for your consideration with this matter;

Sincerely,

Jerry Larson
